# Welcome to the 127<sup>th</sup> **Aitkin County Fair**

Welcome to the 127th Aitkin County Fair. Please keep this book handy as it contains information on how to make open class entries and gives a schedule of the planned activities for this year's fair. The days and times for registering and bringing entries in are listed in the Schedule of Events section. Please read the additional instructions for what is required in a particular department/class.

## **NEW FOR THIS YEAR:**

Crescent City Amusements is bringing in a NEW extreme ride – The KMG Rock It! In order to defray some of the higher costs associated with this specular ride an additional 2 tickets/ride charge for this ride only will be necessary. Realizing that there is a height requirement for this ride and

that ride bands are the most cost effective and very popular, a third choice of an Extreme Mega Ride Band is being offered. The Single Day bands and the Mega band (ride daily/anytime during the fair) offer unlimited rides excluding the Rock It. An additional 2 tickets will be required for each Rock It ride. OR, purchase the Extreme Mega band which includes rides on the Rock It.

**Single Day Bands** – Available every day, 1:00-10:00 pm - \$20 advance/\$25 onsite

**Mega Bands** – Ride daily/anytime - \$50 advance/\$60 onsite \*\*\*

**Extreme Mega Bands** – Ride daily/anytime - \$70 advance/\$80 onsite

\*\*\*Should you have purchased the regular Mega band and wish to upgrade to the Extreme Mega band, just pay an additional \$20 (turning in the regular Mega band is required).

As the 4th of July falls on the Tuesday before the fair and Crescent City Amusements will be extending their stay to include this date, Mega bands will be honored this day also. Five days of terrific rides for the price of four!

## **New Division and Classes in Home Activities Open Class:**

As a result of suggestions from exhibitors and open class judges, we have revamped the Art, Photography and Craft Departments to include work that is done on the computer. In the Art Department there is now a division for Computer Generated Art where all the imagery must be created through computer programming. The classes available here are: Realistic and Abstract. In Photography Department the Digital and Cell Phone divisions have been expanded to three classes each. The new classes are: Non-enhanced or altered, Enhanced, and Altered. And, in the Craft Department there is now a class for Colored Pictures done on the Computer. Other changes include Any Other Media/Mixed Divisions in the Art Department and Coloring Book classes in the Craft Department.

For the Homemade Wine enthusiast, a Kit Wine division has been added to the Homemade Beer and Wine Division. Class are: Reds, White, and Blush – no separation for sweet or dry.

New this year is a “Featured Division” where the entries are judged by a panel. This year the division will be Division 351 – Pickles. Exhibitors are to bring two jars of their entries – one for display and one to be opened and judged by the panel. Visitors are welcome to watch.

**Open Class Registration:** To save time on Entry day by having all your tags ready when you arrive, we recommend preregistration – especially for those with 10 entries or more entries. Same day entry will also remain available. As the 4th of July is on Tuesday and many celebrations have been scheduled around the County, Open Class Home Activities entry day is Monday, July 3, 8:00 am to 5:00 pm. All Open Class Horses and Livestock entries must be brought in on Wednesday, July 5.

## General Tips for Entering Items

1. The exhibit/schedule book has eight Livestock Departments and fourteen Home Activities Departments, two hundred twenty-six Divisions and hundreds of Classes in which to enter. It is a great source of ideas.
2. Open Class entries may be preregistered on-line at <http://fairmanager.com>; by email at [aitkincountyfair@gmail.com](mailto:aitkincountyfair@gmail.com); or if you do not have a computer, by using the entry form found in this book and mailing it in. If entering by Email, be sure to include your name, address, phone number and email address along with the proper department, division and class for your items. Preregistration begins June 1 and ends July 1.
3. On-Line Registration: Simply go to the web site: <http://aitkin.fairmanager.com> and create your own account with your own password to begin entering your open class entries. Reminder: Passwords are only good for one year. New ones must be created every year. Only (1) entry per class is allowed with the exception of the Poultry and Rabbits Departments. Dairy Steers under 2 years are to be entered in Division 117. You may go back to your account anytime to add additional items. If there are any deletions, you may notify us at [aitkincountyfair@gmail.com](mailto:aitkincountyfair@gmail.com) or [aitkincountyfair@yahoo.com](mailto:aitkincountyfair@yahoo.com) or tell us about them on entry so that our records are correct.
4. All exhibitors who pre-register will be entered in a drawing for two (2) passes to the Grandstand Event of their choice. The winner may pick up the passes when he/she brings in his/her entries.
5. Registration for Home Activities (if not preregistered) is the Monday (this year only) before the opening of the fair. All Home Activities area entries must be brought in that day (8 am to 5 pm). All Livestock entries are to be brought in and registered (if not preregistered) on Wednesday (8 am to 5 pm).
6. Entry fee is \$1/entry. However, FREE unlimited entries are available for members of the Agricultural Society. Yearly membership is \$3 for single or \$5 for family/family farms. Membership for Special Living Individuals (Nursing Home residents, special care individuals, etc.) is \$1. Memberships are available on Entry day.

## Hints, Definitions and Judging Criteria for Art and Photography Projects

While the hints, definitions and judging criteria below are mainly for computer generated art projects, digital photography and cell phone photography, the suggestions for Composition, Lighting, Exposure, Focus and Finish areas can also be applied to other types of photography and art exhibits.

**Composition:** Framing and choice of viewpoint –

Proper composition holds the viewer in the image and prompts the viewer to look where the creator intends. Here are the most common compositional techniques:

- Close up
- Framing (doorways, windows, etc.)
- Rule of Thirds (think tic tac toe and hit the crossings)
- Angle (get the above the subject or below – not at eye level)

**Lighting:** The use and control of light refers to how dimension, shape and roundness are defined in an image. Whether the light applied to an image is man-made or natural, proper use of lighting should enhance an image.

**Exposure:** Does the exhibit show proper exposure and how proper exposure insures correct color and over-all brightness?

**Focus:** Sharpness/Depth of field show proper use of the camera so the photograph is focused correctly. The photograph is sharp in the areas the exhibitor wanted to be sharp and not sharp in the other areas.

**Special Effects:** The use of Photoshop filters, etc. must create obvious effects that significantly alters original image and enhances subject matter or composition.

**Finish:** Give the print a finished look. The mats and borders used should support and enhance the image, not distract from it.

## DEPARTMENT 19 – VEGETABLES

Gars Aarness - Superintendent

To assist the gardener in selecting and preparing vegetables for exhibit, the following suggestions are made:

**BEETS, CARROTS, PARSNIPS, TURNIPS, RUTABAGAS** Root crops should be mature but not over grown, pithy or coarse in texture. Tops trimmed off 1 1/4" above the crown. Side roots trimmed off but not the tap root. Clean by brushing.

**BROCCOLI:** Heads should be dark or purplish green and compact. Avoid yellow flowers in head. Stems cut about 5" from top of head.

**CABBAGE:** Stems cut about 1/2" below the head. Remove blemished or broken leaves. Leave few wrapper leaves.

**CAULIFLOWER:** Heads should be white, compact and free of small leaves and ricy texture. Stems cut so as to leave 4 to 6 leaves. Outer leaves trimmed to 1 -2" above the white head. Use soft bristled brush to remove dirt from head.

**CELERY:** Remove roots of stalk and trim butt to form a triangle for pyramid. Trim diseased and broken leaves on outside until color is uniform.

**CUCUMBERS:** Pickling select fruits 3-5" long. Specimens should be same stage of maturity and uniform in size, shape and color. Slicers-select fruits that are straight, dark green and 6-10" long. They should be uniform in size, shape and color. Leave stems attached. Soft brush clean.

**EGGPLANT:** Uniform in color and free from bronzing and greening. Stem should be left on.

**KOHLRABI:** Roots removed just below the ball. Remove all but the center 4-6 leaves. Select specimens that are uniform, medium size and not hard or woody. Skin should be easily punctured by thumbnail. They should be clean but not washed.

**MUSKMELON:** Select fruit that separate easily from the vine. Melons should be mature but not overripe.

**ONIONS:** Have specimens mature and thoroughly cured. The neck should be small. Do not peel to give a slick appearance. Only such outer scales that are broken or discolored should be removed. Small basal roots should be left intact but trimmed to a uniform length of 1/2". Wipe or brush but do not wash. Cut tops 1 to 1-1/2 inches long.

**PEAS:** Select bright green well filled with seeds, the best eating stage. Do not wash as bloom should be preserved.

**PEPPERS:** Stem should be left 1/2 -1" long.

**RADISHES:** Tap root cut 1/2" and tops cut to 1/2".

**RHUBARB:** Select stalks that are straight, uniform and unblemished. Stalks should be pulled from the plant, not cut. Cut off blade leaf 2" above the stalk.

**SNAP BEANS:** Harvest before constrictions appear between seeds, when seeds are about half grown. Pods should be wiped clean but not washed. Leave stems attached.

**SUMMER SQUASH:** Select small size fruit when rind is soft and easily punctured with thumbnail. Leave about 1/2" of stem and wipe fruits clean.

**TABLE ONIONS:** Peeled roots, trimmed tops, cut uniform 6-8".

**TOMATOES:** Uniform size, shape and color. Leave 1/2" stem on. Fruits should be uniformly shaped and free of cracks and blemishes.

**WATERMELONS:** Select fruit that are mature but not overripe. Leave 1 inch of stem on.
